## **St Marks Makeover Project Backgrounder: Fundraising Targets**

St Mark's church hall is a hidden gem in the community; it offers *your place in our space* to a diverse range of organisations and individuals in the Harlesden/ Kensal Rise community. Up to 800 people use the centre each week, which is over four times the average Sunday congregation.

Launched in June 2009, The Makeover Project is an ambitious five-year redevelopment plan to create a significantly improved community facility adjacent to and in St Mark's Church.

Fundraising targets are challenging – The Makeover Project is looking to raise £750,000 or more over the next five years - and plans are phased accordingly. A proportion of the funding will be achieved through grants and the rest through the congregation and the support of our community.

We are off to a good start as we launch the Makeover Project, with nearly £90,000 in hand and from grants already received.

Log on at [www.saintms.co.uk/makeover](http://www.saintms.co.uk/makeover) for details of how you can become involved.
